

UMAGE

Collection 2022 / 2023

UMAGE is a Danish word meaning ‘making an effort’, and that’s what we want to do every day. UIMAGE is where beautiful Danish design meets affordability, high-quality material, and a genuine care for the environment.

At UIMAGE, we combine aesthetics, simplicity and functionality and infuse it with thoughtful craftsmanship and environmental care. The result is exquisite designs with a sustainable edge. Our designs are flat-packed to optimize global logistics and make our designs more accessible and affordable. In the process, we minimize the carbon footprint on our planet and maximise our ethical commitment to environmental responsibility.

A man with grey hair, wearing a light blue button-down shirt and dark blue jeans, is sitting on a white wooden stool. He is smiling and looking towards the right. The room is modern and minimalist, with a light-colored wall. On the wall, there is a logo consisting of two interlocking diamonds above the word "UMAGE" in a gold, sans-serif font. To the left, there is a dark blue sofa with a wooden coffee table in front of it. On the coffee table, there is a white ceramic vase with dried flowers and a small candle. To the right, there is a floor lamp with a white, textured, spherical shade. A large, white, textured, oval-shaped pendant light hangs from the ceiling. The floor is made of light-colored wood. Sunlight is streaming in from the left, creating a bright, warm atmosphere.

UMAGE

Søren Ravn Christensen
co-founder and chief creative developer

“If we treat every living creature with kindness and respect, nature will prevail – as will UIMAGE!”

Sustainability efforts

We acknowledge that selling furniture and lighting can never be 100% sustainable, but we want to make an extra effort for the environment.

We are dedicated to being sensible front-runners on environmental responsibility. If we provide timeless, lasting, and functional quality designs, we know nature will prevail, as will UIMAGE.

“We are constantly improving our designs and trying to do even better for the environment, with new sustainable materials, greater functionality and by making our flat-packed products even smaller, to care for you and the planet.”

Reforestation

UIMAGE collaborates with the NGO One Tree Planted, so every time a design made from wood is sold, we plant a tree. Trees help clean the air we breathe, filter the water we drink and provide habitat to over 80% of the world's terrestrial biodiversity. Forests provide jobs to over 1.6 billion people, absorb harmful car-

bon from the atmosphere, and are key ingredients in 25% of all medicines. Fortunately, a mature tree can absorb an average of 22lbs of carbon dioxide per year, making cities a healthier, safer place to live.

We planted 20.093 trees in 2021, based on your love for UIMAGE – so THANK YOU!

Multifunctional and flexible

Why have a table lamp or a side table and not include a USB or wireless charger as well? Why not make room for storage where the space is vacant anyway? UIMAGE not only answers these questions but makes it happen. One of the key aspects of the furniture and lighting designs at UIMAGE is multiple functions and flexibility. Designing with more than one function in mind is a sustainable mindset as it reduces the number of products you need to buy to get a complete setting for your space.

Compact packaging

We have replaced all foam and plastic in our packaging with eco-friendly materials

to minimise plastic waste when purchasing an UIMAGE design. So, our designs are not only flat-packed to optimise the global logistics and the environmental footprint, but we also make sure that you don't need to throw away tons of packaging material and that the packaging you're left with can be recycled and used for something new.

Replaceable and recyclable

Creating long-lasting designs is an essential part of the UIMAGE brand. To extend the life of the design, most parts of the furniture and lamps at UIMAGE are replaceable. If a part breaks or gets worn out, you don't have to go out and replace a complete piece of furniture or lamp – you can simply replace the single parts.

When your UIMAGE design has lived a full life, it can be separated into key elements for recycling.

Interchangeable elements

As the times change, the designs can change accordingly. Two years have passed, and suddenly you want another colour on your lounge chair, then simply interchange upholstery in a few minutes. Same thing with our dining chairs, cabinets, and other responsible designs. This means you can add new life to the design and your interior without buying an entirely new furniture piece, saving the world's resources.

“The new textile is called Horizons – reminding us that a brighter future is in sight, if we are all making that extra effort for the planet.”

100% recycled textiles

The Horizons textiles are recycled from plastic waste and reused for a new purpose in the design of comfortable chairs and cute cabinets at UIMAGE. The textiles are certified with Global Recycled Standard and STANDARD 100 by OEKO-TEX®. The recycled textile is available for our The Reader, A Conversation Piece, Time Flies, Treasures, and Audacious collections from UIMAGE.

Certified to the RDS by IDFL 006312

Responsible Down Standard

At UIMAGE, we ensure that all goose feathers used for our Eos feather lamp collection are 100% sustainably sourced from farmland to end-consumer. All feathers are licensed with an RDS certification, ensuring the well-being of animals in our production.

Nordic Swan Ecolabel

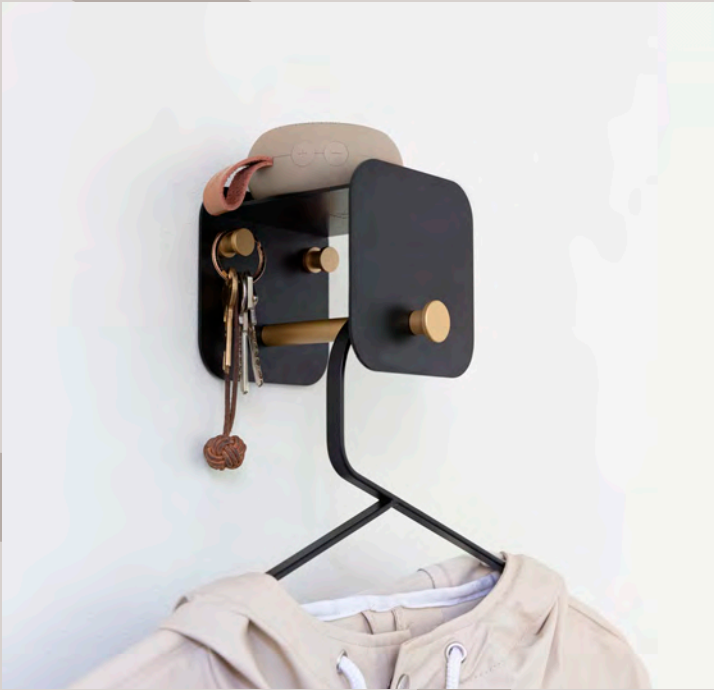

The Dunes collection from Sørensen Leather is a part of our permanent upholstery collection for the UIMAGE lounge chairs and ottomans. The Dunes collection has received the Nordic Swan Ecolabel: A highly respected certification verifying that it meets their rigorous requirements regarding the environment, energy use and resources.

A Conversation Piece low is a lounge chair that encourages relaxation and openness, unwinding and having a conversation with friends. It is ideal for use in the living room, as a corner chair, or as part of an extra lounge area. Its comfortable shape also makes it suitable for the bedroom or as an extra chair in a nursery. The lounge chair is available in oak, dark oak and black oak in four carefully selected colours of the 100% recycled Horizons textile.

A Conversation Piece low has interchangeable upholstery, meaning that you can change the upholstery easily yourself and add new life to the design without having to buy an entirely new furniture piece, saving the world resources.

Lounge Around is a multifunctional, flexible sofa designed to be the centrepiece of your living room. After a busy day it's the perfect place to lie back, relax and recharge. Its slim size and multifunctionality makes it perfect in all sorts of living rooms, bedrooms and guest rooms whether large or small. It is also ideal for use in a summer house, as a hotel daybed or as a couch in a reception area or waiting room.

Lounge Around 1.5-seater is sofa chair designed as a space to care for you and only you. Clean lines, an unfussy design and high-quality materials give Lounge Around a light Nordic expression. The narrow seat cushion has a thin tray on the reverse side, allowing you to set aside your coffee or laptop.

STANDARD 100 by OEKO-TEX®

The Reader wing chair has been designed as a place for letting your body sink into and relax. The chair's unique curved shell is inspired by traditional Danish crafting techniques and helps to reduce surrounding noise, offering a place of shelter and reflection. With its light form and bold organic curves, The Reader is a standout design piece in any setting and just right for enjoying a good book or engaging conversation.

The solid oak legs on the ottoman are visually lifted from the base adding a light character to the design. The shape of the cushions have been designed to slightly expose the ottoman's shell, giving extra focus on the wooden details. A palette of Scandinavian colours for the upholstery are carefully selected to endorse the natural wood of the oak.

The Reader is available in oak, dark oak and black oak in four carefully selected colours of the 100% recycled Horizons textile. The wing chair has interchangeable upholstery, meaning that you can change the upholstery easily yourself and add new life to the design without having to buy an entirely new furniture piece, saving the world resources.

STANDARD 100 by OEKO-TEX®

Audacious is a cabinet with personality designed as a place for displaying your favourite pieces. Its special tambour doors slide around the edge of the cabinet, letting you choose how much of the interior you want to put on show.

Audacious side table is very suitable as a bedside table in hotel rooms or next to the sofa. Inside the table is a hidden USB-hub with four USB outlets and a micro-USB so the entire family can charge their phones and tablets at the same time.

The side table is a practical solution with storage space for your small bits and bobs. The inside shelf of Audacious is specially shaped with a cutaway section for higher items like books and magazines.

Change the position of the sliding doors to create new displays and uses. Available in oak, dark oak and black oak with tambour doors in four carefully selected colours of the 100% recycled Horizons textile.

The tambour doors are interchangeable, meaning that you can change them easily yourself and add new life to the design without having to buy an entirely new furniture piece, saving the world resources.

Stories is a flexible shelving unit, where you can put the things you love the most on display and share your life stories. Stories consists of 4 shelves, where one has a hole with a brass plate for your small bits and bobs. The shelving unit also comes with three wooden trays that has a venetian cane front making it easy to beautifully hide away your messy stuff. Stories can be expanded to the size you need and personalized with the several shelving accessories, including a glass bowl, extra storage trays and a side table.

With the Stories accessories you can add extra functionality to the Stories. One of the shelves has a hole with a brass tray for your small bits and bobs. You can also use the hole for the available glass bowl accessory. In the glass bowl you can create your own indoor terrarium planter or even hold a goldfish. Add the round corner table accessory to the side of the shelving system to display a plant or other things that need that extra important spot in your space. The three wooden trays accessory with a venetian cane front make it easy to beautifully hide away your otherwise messy stuff.

Stories is made from oak and has a simple visual attraction with its four conical legs that creates an agile and dainty appearance. The shelving system comes with four brass feet that can be adjusted and levelled to the slanting floors often seen in the old apartments of Copenhagen.

The Asteria Micro pendant lamp is a small lamp with a great personality. The LED panel has a white diffuser that will ensure a soft illumination in the surrounding space and its thin cord emphasize the attenuated minimalism of the design. Its mode of expression is simple, minimal and classic making it perfect for all settings. Hang Asteria Micro by itself or side by side above the kitchen counter ensuring practical and proper light when cooking for your family and friends. For the smaller corners of the home that needs a little extra lighting, hang it in a cluster of three using the Asteria Micro Cluster 3 canopy. For a cluster look simply replace the included canopies with the new Asteria Micro Cluster 3 canopy. Either way it will light up your home in the most elegant manner.

Asteria Micro is available in 11 carefully selected colours, making the lamp versatile and ensuring a design that matches your personal style. Its elegant brass details and the discrete design will make sure that the lamp remains timeless even in bold colours.

The Asteria floor is born at the crossroads of design, technology and craftsmanship. It incorporates a built-in LED technology with a shape so minimal that it will never go out of style.

The LED panel is dimmable and has a white diffuser ensuring a soft illumination in the surrounding space. The brass stem going through the floor lamp as a vertical axis, reinforces a tight expression and by turning the top part of the stem you easily turn the light on and off.

Asteria table has a built-in LED panel with a diffuser ensuring a soft illumination in the room. The brass stem going through the table lamp as a vertical axis reinforces a tight and sleek expression. Asteria table has a hidden USB-port, so you can charge your phone – even when the light is turned off. The lamp is ideal on the desk or as a bedside table lamp but will add elegance to every corner of the home.

Asteria Move is a portable table lamp free of any cords, adding an extra focus to the design and making it easy to move around so the light is where it is needed.

The lamp has a built-in custom LED light with a soft white diffuser that ensures a glare-free light. The sleek design in aluminium and the brass stem going through the lamp offers a tight and sophisticated expression, making Asteria Move a timeless lamp that you will cherish for years to come.

Asteria Move has three light intensity levels that can be adjusted by pushing the button of the lamp base. The battery lifetime is up to 35 hours and it can easily be charged by placing it on top of any Qi charging unit, like the Unifier from the UIMAGE lighting accessory collection or with the included USB cable.

Asteria Move is available in nine different colours, and the small size and portable design make it the perfect illumination for all places and occasions.

Eos Esther

Designed by: Søren Ravn Christensen

Materials: Goose feathers, textile and steel

Specifications: Pendant, floor and table lamp, flip 180°,
lightsource max 15W LED E27 / E26 (not included)

Dimensions: Eos Esther mini h: 16 cm w: 52 cm d: 44 cm
Eos Esther medium h: 22 cm w: 66 cm d: 52 cm
Eos Esther large h: 24 cm w: 79 cm d: 64 cm

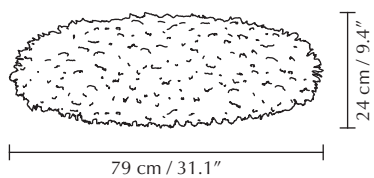

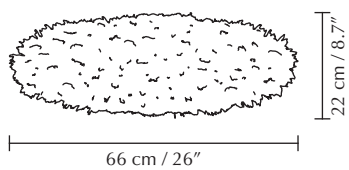

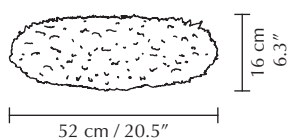

The name Eos originates from Greek mythology, the goddess of the dawn, referencing how the lampshade looks like clouds in the sky. Esther is available in five colours of three different sizes and can be mixed and matched in clusters to create mesmerizing clouds in the ceiling.

Esther is an elegant and slim cloud hanging from the ceiling. The lampshade can be rotated and hang from four different angles, extending the flexibility and visual effect of the lampshade.

The oval shape of Esther makes it an elegant solution for the dining table.

Designers

The designers at UIMAGE take inspiration from the distinct nature of the Nordic landscape to create unique designs related to how we live in an urban setting. Influenced by the design language, colours and material that surrounds us in Denmark, we create a collection that is rooted in our home but designed for everyone.

Kvadrat

Canvas 2 | Fabric from Kvadrat

Canvas is a vibrant woollen upholstery fabric created by Giulio Ridolfo. Particularly well-suited to large surfaces thanks to its pronounced structure, it features a soft weave and an expanded palette inspired by the

landscapes of Skagen, Denmark. The melange yarn used to craft Canvas combines three colours, with six hues in every colourway. Consequently, the fabric offers exceptional colour richness and an intriguing

expression. From a distance, it has the calm surface of a unicoloured fabric. But, get closer, and shimmering colour nuances, delicate contrasts and an elegant structure emerge.

Remix 2 | Fabric from Kvadrat

Remix 2 is an elegant woollen upholstery fabric created by acclaimed designer Giulio Ridolfo. Featuring a plain, tight and minimalistic weave, Remix is made from melange yarns, and, consequently, offers ex-

ceptional colour depth. These yarns comprise up to three colours and, as two differently coloured yarns are used to create every colourway, each combines up to six hues. This combination creates a lively play

of irregular colours across the fabric. Giulio Ridolfo: "Remix shows how beautiful a yarn can be and projects a strong sense of craftsmanship."

Harald 3 | Fabric from Kvadrat

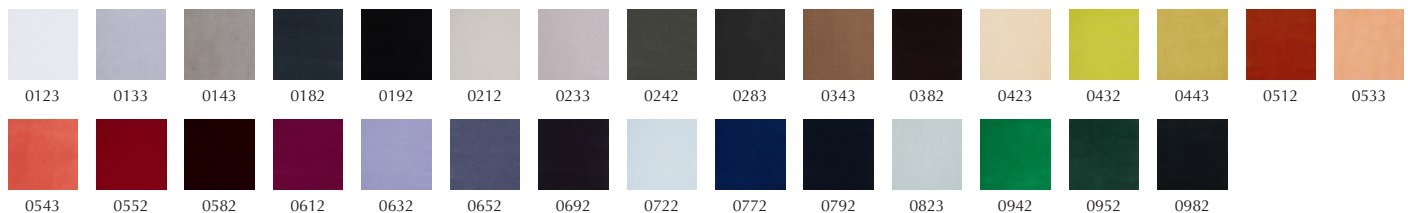

A closely-woven, very short-pile velour, Harald brings the fresh, soft texture of cotton to a directionless velvety textile. The intense colour offered by this matte velour places the focus strongly onto the silhouette of the upholstered object, emphasising its

shape and contours. Originally designed by Fanny Aronsen, Harald comes in a new colour palette conceived by Raf Simons offering a particularly large selection of vivid keynote tones, including primrose yellow, burnt orange, raspberry, lavender, aubergine

and dark mint green, alongside more natural tones. Harald is a durable fabric suitable for use as curtains as well as in upholstery.

Name: Harald 3
Designer: Raf Simons & Fanny Aronsen
Type: Raf Simons upholstery

Maple | Fabric from Kvadrat

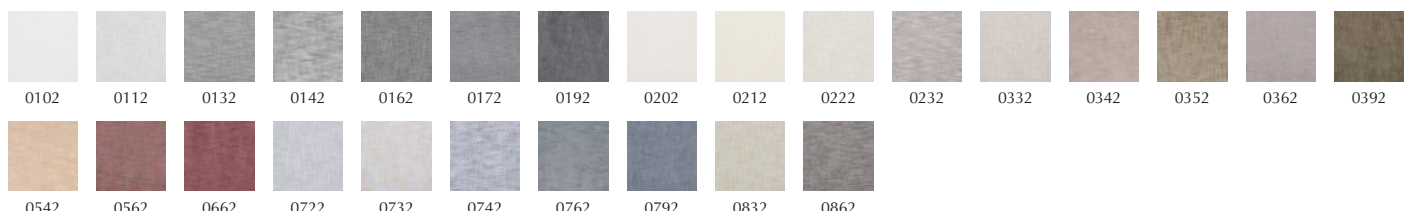

Aero-finished and therefore extremely soft to the touch, Pine and Maple are made with three tone-in-tone coloured yarns. The viscose used in their construction gives them a distinctive shimmer, which

deepens according to the light and the perspective of the viewer. Pine is flat-woven and has a subtle striated look. Maple is woven with a chenille yarn and has a soft pile that reveals the structure of the

weave. Foreign fibres and small clusters of colour may appear on the fabric's surface adding to their slightly irregular, casual expression.

Name: Maple

Re-wool | Fabric from Kvadrat

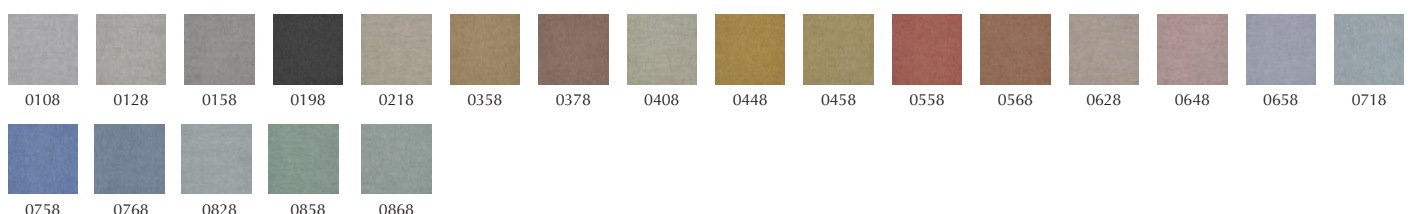

Crafted using 45% recycled wool, Re-wool is a rich upholstery fabric with a sustainable profile. The fabric is partly made by reusing scraps from Kvadrat's yarn spinners in the UK. It is designed by Margrethe

Odgaard. 'The idea was to create a both honest and environmentally friendly – fabric with a poetic feel by recycling leftover material from Kvadrat's own production', explains Margrethe Odgaard. Reminiscent

of colourful stitchings on a darker background, Re-wool features exceptional depth of colour, creating a dynamic play on the fabric's surface when applied to furniture.

Sørensen Leather

DUNES | Leather from Sørensen Leather

The DUNES collection has received the Nordic Swan Ecolabel. A highly-respected certification verifying that it meets their rigorous requirements regarding the environment, use of energy and resources. A special process involving sanding, buffing and applying a special type of leather oil to the surface

gives it that almost velvety touch. At the same time, DUNES boasts a matt look that's raw with a touch of understated elegance. Part of DUNES' extra appeal are the subtle, natural markings which bring a unique personality to each hide. The five colours we feature will also vary from hide to hide and with

each individual hide. Watch for a delicious patina that will appear over time as a result of the leather's exposure to daylight, interior lighting and usage. In fact, the more you use DUNES, the more the leather becomes shinier and smoother.

Name: DUNES
Type: Aniline leather
Thickness: 1.1 – 1.3 mm
Size: 4.5 – 5.5 m²
Origin: European rawhide, typically from Italy, Germany, Austria, Switzerland and Scandinavia
Surface: An elegant, matt surface with a somewhat velvety look and feel

Finish: Special leather oil to enhance the body
Tannage: Chrome-free
Dye: Water-based Aniline dye
Particular attributes: Discrete exclusivity in a natural look that wears beautifully
